

Member Notice – 2023_0002

Date: 03/02/2023

Priority: Normal

Venue(s): Aquis Exchange UK (AQXE), Aquis Exchange EU (AQEU) and Aquis Stock Exchange (AQSE)

Subject: Aquis hardware upgrades in LON1

Aquis Exchange and Aquis Stock Exchange would like to advise members, vendors and market data recipients of planned upgrades of Aquis' POP switches in Interxion LON1.

The upgrade will take place on Friday 10th March between 6pm – 10pm (UK time). Members will notice flaps on the cross connect ports and BGP peering during this time in LON1.

Customers of Aquis Exchange UK (AQXE), Aquis Exchange EU (AQEU), and Aquis Stock Exchange (AQSE) are strongly advised to test connectivity for market data and order entry next day.

If you intend to test, please confirm to support@quis.eu and provide a contact number and email address for the day of testing.

Connectivity and market data heartbeats for these three platforms will be available on Saturday 11th March from 10am – 1pm (UK time).

Market data from the Production environment may still be broadcast – firms are advised to disregard this. Any member trading sessions that connect over the weekend must have their sequence numbers re-set in preparation for the start of business 13th March 2023.

For more information, please contact the Aquis Exchange Support team on support@quis.eu or call +44 (0)20 3597 6333.
