

Member Notice – 2025_0018

Date: 28th November 2025

Priority: Normal

Venue(s): Aquis Exchange Limited (AQXE), Aquis Exchange Europe (AQEU)

Subject: Deferral of Production Release

Overview

Aquis Exchange would like to inform customers that the production release scheduled for deployment at the end of the day on Friday 28th November will be deferred due to the identification of a bug in the CT environment. While the bug has been resolved, our release policy prohibits deployment given the proximity to the scheduled release date.

The production release is now rescheduled for deployment at the end of the day on Friday 16th January 2026 (effective from Monday 19th January).

Members, software providers, and market data recipients are advised to defer the deployment of new functionality until the revised release date. The details of the release are outlined in [Member Notice 2025_0016](#) and [Member Notice 2025_0017](#).

If you have any questions, please contact the Aquis Exchange Support team on support@aquis.eu or call +44 (0)20 3597 6333.
